

2020 Price List

Hand-carved from the finest hardwoods, Elrick Basses feature bodies of swamp ash or alder. Necks are constructed of quarter-sawn hard maple or quarter-sawn wenge, a 24 fret + zero fret wenge fretboard is standard. 4-string basses feature 34" scale, 35" scale is standard on all other instruments, many other scales are also available by special request. All models feature 2-way truss rods, custom Elrick bridge, Hipshot hardware, Dunlop straplocks, Bartolini pickups and 3-band active/passive preamp as original equipment.

Master Series Basses

Master Series Single-cut Thru-neck Bass Guitar

The Master Series is a special series of instruments for the most discriminating musicians and collectors. Instruments feature a *prix fixe* menu of special options including; 5-piece thru-neck construction, choice of body wood, fretboard and scale length, full-face book-matched top and pickup covers, exclusive Master Series fretboard inlay and matching headstock emblem. Single-cut construction for unsurpassed stability and sustain. Hand-carved neck, heel and body contours. Choice of black, polished nickel or gold hardware.

Platinum Series Basses

Thru-neck Bass Guitar

Thru-neck construction in single-cut or double-cutaway configuration. Book-matched exotic wood top, hand-carved neck heel and body contours. Instruments with single-cut bodies offer unsurpassed stability and sustain, while instruments with double-cutaway bodies offer the more familiar appearance of a traditional bass guitar.

- Available in Classic and e-volution shapes.

Hybrid-neck Bass Guitar

Hybrid bass guitars bridge the physical gap between thru-neck and bolt-on constructed instruments. Features include set-neck construction with book-matched exotic wood top, hand-carved neck heel and body contours. These instruments deliver the feel of a thru-neck guitar with many qualities of a bolt-on.

- Available in Classic and e-volution shapes.

Semi-hollow Bass Guitar

This model includes a resonant semi-hollow body. A limited variety of figured wood tops are offered on this model. Single Bartolini humbucking pickup in bridge position and L.R. Baggs undersaddle pickup in a wood tailpiece. Strung through the body with passive tone control, this bass offers excellent organic tones similar to those of an acoustic instrument.

- Available in Classic and e-volution shapes.

Platinum Series DBS / *Daric Bennett Signature* Single-cut Bass Guitar

Developed for musician and educator Daric Bennett, The *Platinum Series DBS* bass guitar was designed to facilitate Daric's incredible technique, while delivering the tone and responsiveness his playing demands. Achieved through a unique combination of specifications, the DBS features; thru-neck construction in single-cut configuration, 35" scale, maple neck, birdseye maple fretboard, alder body, figured walnut top, Bartolini DBS dual-coil soapbar pickups and 3-band pre-amp, black hardware and 18mm string spacing.

As with every other US Series Elrick Bass, the Platinum Series DBS may be ordered in custom configurations.

- Available in e-volution shape.

Gold Series Basses

Gold Standard Bolt-on neck Bass Guitar

"Heel-less" body design makes these the most comfortable playing bolt-on neck bass guitars available. In order to achieve the utmost in stability as well as playability, necks are attached using five bolts in an asymmetrical pattern. Book-matched exotic wood tops are a standard feature on all Gold Series basses.

- Available in Classic, e-volution and NJS shapes.

Gold Standard SLC Bolt-on neck Bass Guitar

Inspired by one of a kind solo bass performer and old friend, Steve Lawson. A semi-hollow body featuring our "heel-less" body design is one of many unique design features found on this special bass guitar. A 33" scale neck is attached using five bolts in an asymmetrical pattern for exceptional stability and playability, while a thru-body string option makes possible the use of standard scale strings. A Macassar ebony fretboard and custom Aero single coil pickups (featuring matching wood covers) in passive configuration contribute to the clarity and articulation of this instrument. Combined with the medium scale length, 17mm string spacing and 2" neck width at the zero fret (on 6-string model) accommodates chordal players as well as soloists. Controls consist of dual volume, passive tone, 3-way pickup selector and push-button momentary / kill switch for special effects. Glow in the dark side dot position markers and book-matched exotic wood top are standard features.

As with every other US Series Elrick Bass, the Gold Standard SLC may be ordered in custom configurations.

- Available in e-volution shape.

Gold Standard Icon Bass Guitar

A modern 21 fret passive bass guitar featuring precision-style split neck pickups. A hum-cancelling jazz style bridge pickup may also be added to create a P/J pickup configuration. The unique body shape of the Icon bass utilizes our "heel-less" design, which makes Gold Series basses the most comfortable playing bolt-on neck bass guitars available.

Standard Series Basses

Standard Series basses are hand-made utilizing the same select materials and components found on hand-carved Gold and Platinum Series instruments. The choice woods used in Standard Series instruments are the foundation upon which all Elrick Basses are built. Standard Series options are limited to those found on in-stock instruments.

New Jazz Standard Bolt-on neck Bass Guitar

A truly unique Jazz Style instrument, featuring an angled headstock and 24 frets+zero fret. NJS basses feature a "heel-less" body design with extended treble access. To optimize stability as well as playability, the neck attaches via six bolts in an asymmetrical pattern. US Bartolini Jazz pickups and 3-band active/passive pre-amp with 2-way mid-frequency. US Elrick / Hipshot hardware. Quarter-sawn maple or Santos rosewood fretboard. Swamp ash and Alder bodies with lacquer finishes and matching headstocks. Block or dot top position markers.

e-volution Bolt-on neck Bass Guitar

Standard Series e-volution basses feature the same components and specifications found on USA Gold Series basses. US Bartolini jazz coil pickups and 3-band pre-amp with active/passive and 3-way mid-frequency. US Elrick / Hipshot hardware. Wenge fretboard with dot top position markers. Swamp ash bodies with natural finishes.
